

Omega Window System

Fixed frame window system, mainly fitted externally and used for tilt and turn windows or sash windows.

- Tilt & Turn / Sash Windows
- 18x16 Phiferglass™ mesh
- Robust aluminium frame
- Interior/Exterior use
- Fixed system
- Commercial & Residential use

The Omega fixed frame window system is mainly fitted externally and used for tilt and turn windows or sash windows. It can be mounted on the exterior of the window frame, or fitted within the tilt & turn window frame and held in place by the top and bottom flange in the screen frame.

When mounting within the window frame it is fitted from inside the building, so it is an ideal screening option for windows situated above the ground floor.

VERSATILE

The 43mm profile option is designed to avoid obstacles such as handles, locks etc. and is recommended for sash windows. The 28mm profile is recommended for tilt and turn windows.

Suitable for use with Poll-tex® pollen resistant screen mesh.

FR RATED

Phiferglass™ complies with requirements for Type C performance of BS 5867: Part 2.

COLOURS

Powdercoated aluminium: White (RAL 9016) or Brown (RAL 8077)

Phiferglass™ mesh: Black or Grey

SIZE

Two profile depths are available: 28mm or 43mm.

Max. recommended size is W 100cm x H 200cm.

A mid bar support may be required to provide additional strength.

If you have a larger size requirements please contact us to discuss your project.
